Tutoring is one of the most widely used of the Dixie State University learning assistance services and is available to all registered DSU students.

Tutoring is available in the Academic Performance Center for most lower-division, high-demand classes across campus at no cost to DSU students who are seeking assistance. The study hall concept is popular because of its flexibility in allowing students to get help at their convenience during posted hours rather than making and keeping appointments. Students work on assignments independently while having the opportunity for tutor assistance when needed, but they often also form casual study groups in which to learn together.

In addition to study hall tutoring, individualized appointments are available. Tutoring by appointment provides students with an in-depth study session with a dedicated peer tutor for thirty-minute appointments. In these appointments, students and tutors can work uninterrupted within the center or in private study rooms. This is ideal for students who may be stuck on a difficult concept, want to review for a test, or just need someone to run flashcards with. Appointments can be made by calling 435.879.4731, stopping by the Academic Performance Center in person, or through their website (https://tutoring.dixie.edu/).

The Academic Performance Center features the newest of campus facilities and equipment to help students be successful. The Center is designed to be as user-friendly and helpful as possible. Tutoring schedules are updated each semester and available on their website.

All Academic Performance Center tutors have scored an A in the courses they tutor, are recommended by at least two faculty members, and are trained in tutoring methodology and best practices. The Academic Performance Center is certified by the College Reading and Learning Association.
