

Biology - Integrated Science Biology Education, BS

Biology with Integrated Science Program Learning Outcomes

At the successful conclusion of this program, students will be able to:

1. Outline the foundational concepts of biology including cellular, organismic, ecological, and evolutionary biology.
2. Evaluate hypotheses, design research, test hypotheses, conduct data analysis, and draw conclusions on biology related problems.
3. Integrate knowledge of scientific literacy in oral and written assignments when communicating biological topics.
4. Develop an understanding of why science is an integral activity for addressing social and environmental problems.
5. Analyze evidence to continually reflect on and adapt practices to meet the needs of K-12 learners.
