

Management, AS

Program Description

The Associate of Science in Management is a two-year business degree designed to provide recipients employable skills, which will facilitate their qualified entry-level placement in the job market, as well as a foundation to any baccalaureate degree in business. Specialized certification may be acquired as part of the degree to provide added proficiency for employment.

Program Curriculum

60 credits

Utah Tech General Education Requirements

All Utah Tech General Education requirements must be fulfilled. A previously earned degree may fulfill those requirements, but courses must be equivalent to Utah Tech's minimum General Education standards in American Institutions, English, and Mathematics.

Associates in Management Program Learning Outcomes

At the successful completion of this program, students will be able to:

1. Create a self-study of personal strengths and abilities and apply that knowledge to successful career exploration and development.
2. Demonstrate critical thinking through problem-solving and innovation relative to existing and emerging issues.
3. Identify and apply quantitative principles and methods in the solution of problems and draw and evaluate conclusions in order to check the logic and validity of statements and models.
